

**Dunwoody College of Technology Articulation Agreement
Post-Secondary Institution to Dunwoody College of Technology**

Initiation of the *Articulation Agreement Form*

- The dean/program manager of the department or a designated faculty member is to initiate the *Articulation Agreement Form*, which can be obtained from Dunwoody's Articulation Coordinator (AC) or by accessing the Dunwoody Intranet: *departments/academic administration/articulation forms*.
- An initial contact should be made by the dean/program manager with the AC so that the AC knows that an *Articulation Agreement* is in process and that the correct form is being used.
- The dean, program manager, or faculty member is to work with the appropriate individual from the transferring institution to identify the course(s) content, the institution's contact information, and other required details of the *Articulation Agreement*.

Completing the *Articulation Agreement Form*

- **Section 1** of the *Articulation Agreement Form*: legal name and address of the transferring institution must be included and accurate.
- **Section 2** identifies the type of coursework being transferred in. This can be in the form of a block transfer (i.e. allowing a student to bring in all Arts and Sciences credits from the transferring institution, including electives) or individual course credits from the transferring institution. It should be noted that the transfer and allocation of technical and Arts and Sciences credits are determined by the Department of Education, the Minnesota Office of Higher Education, and all pertinent accrediting bodies.
- **Section 3** requires the transferring institution's course information including the course title, course number, number of credits; the course title, course number, and the number of credits of the Dunwoody College of Technology course being credited; and the number of credits to be awarded by Dunwoody College of Technology.
- **Section 4** requires a detailed description of the articulation agreement. This includes a summary of what is being transferred and how the credits are to be awarded.
- **Section 5** requires the specified signatures, the date the agreement becomes effective, and the date by which the *Articulation Agreement* must be renewed; the dean/program manager should monitor the renewal date. If not renewed by stated date, the agreement will automatically expire. If the current agreement expires, a new agreement must be reviewed and signed.

Final Review, Signatures, Distribution of the *Articulation Agreement*

- Once the *Articulation Agreement Form* is complete, it is to be presented to the department dean/manager, who will review it. Once they approve it the dean/manager will present it to the AC who will review the form for academic content and detail accuracy. If significant changes are to be made, the dean/program manager is to discuss them with the appropriate individual from the transferring institution.
- The AC will direct the form to the provost for academic content review and signature. If significant changes are to be made, the dean/program manager is to discuss them with the transferring institution.
- Once the form is approved and signed by the provost, it is to be directed back to the AC. The AC, the dean, the program manager, or a program faculty member will then contact the transferring institution to obtain the appropriate signature. The transferring institution's signee must have signing authority for the institution.
- The *Articulation Agreement* must contain the signature of the designated signee of both institutions for the agreement to be in place.
- The AC should ensure that a hard copy of the *Articulation Agreement* (signed by both parties) is on file with:
 - The post-secondary institution
 - The Office of the Provost at Dunwoody College of Technology
- An internal copy will be posted by the AC on the Dunwoody Intranet: *departments/academic administration/articulation forms*.
- An external copy will be posted to Dunwoody College of Technology's Articulation Agreements webpage, currently located at <https://dunwoody.edu/about/accountability/articulation-agreements/>.

**Dunwoody College of Technology Articulation Agreement
for
Transfer of Credits from North Dakota State College of Science to Dunwoody College of Technology**

1. This agreement has been entered into by Dunwoody College of Technology and North Dakota State College of Science.

Dunwoody College of Technology
818 Dunwoody Boulevard
Minneapolis, MN 55403

North Dakota State College of Science
800 6th Street N.
Wahpeton, ND 58076

This agreement is designed to facilitate credit transfer from a program area at North Dakota State College of Science into a program area at Dunwoody College of Technology. Note: Evaluation and transfer of credits must comply with the standards and policies for credit transfers as set forth by all pertinent accrediting bodies.

2. This agreement covers the transfer of credits from North Dakota State College of Science to Dunwoody College of Technology in the following areas:

Block Transfer

Program area(s) transferred into: North Dakota State College of Science Associate in Applied Science - Architectural Drafting and Estimating Technology

Program area(s) transferred into: Dunwoody College of Technology Bachelor of Architecture

Number of credits transferred: 45

Credit type: Technical

Individual Course Transfer

Individual courses are transferred as listed in the chart below.

Number of credits transferred: 18

Credit type: Arts and Sciences

Transferring Institution General Education Requirements	Course Number	Dunwoody College of Technology General Education Requirements	Credits Awarded
Social and Behavioral Sciences, Humanities, or History Elective*		Social Sciences <i>*The Bachelor of Architecture program requires completion of 30 credits of general education credits. Of these 30 credits, 12 credits of general education credits must be from specific categories required by the Minnesota Office of Higher Education (3 credits each of arts/humanities, math or science, social science, and communication) and the other 18 credits of elective general education courses must be applied into the general education category requirements listed above. Computer electives typically do not transfer for the required general education categories.</i>	4
	MATH 130	Natural Sciences / Math	2
	MATH 132	Natural Sciences / Math	2
	MATH 136	Natural Sciences / Math	2

College Composition I	ENGL 110	Communications	3
English/Communication Elective		Communications	3
Wellness Elective(s)		General Education Elective	2

3. Articulation Agreement Description and/or Comments: The following outlines the programs credit dispersion showing the number of credits being transferred in, along with a statement of the number of credits remaining to complete the program.

	Technical (Major) Credits			Arts & Sciences Credits (General Education)		
	Required	Granted	Remaining	Required	Granted	Remaining
Lower Division	45	45	0	30	18	12
Upper Division	75	0	75	0	0	0
Totals	120	45	75	30	18	12

Comments: This articulation agreement was created using North Dakota State College of Science's 2021-2022 Academic Plan for the Associate of Applied Science in Architectural Drafting & Estimating Technology and Dunwoody College's 2021-2022 Academic Plan for the Bachelor of Architecture.

Additional Documentation (if needed): Sample Transfer Credit Evaluation, NAAB (National Architectural Accreditation Board) Assessment Rubric

4. Implementation and Review
- The chief academic officer or designee of each institution shall be responsible for administering this agreement and for identifying and incorporating any changes to the agreement.
 - Any proposed change must be agreed upon by both institutions; the current contract would need to be amended or a new contract would need to be written.
 - This agreement becomes effective 6/1/2021 and will be reviewed for renewal by 5/31/2026 or the agreement will automatically expire.
 - The institutions shall work with students to resolve transfer of courses should changes to either program occur while this agreement is in effect.
 - The sending College will provide an official logo to attach to Dunwoody College of Technology's articulation webpage. Logos can be emailed to registrar@dunwoody.edu.
5. The parties of this agreement hereby agree to the terms and conditions set forth in this agreement.
